DBI Partners with Cartrack

By DBI Staff Writer

Direct & Beyond Inc. is always working to improve efficiency and performance for our customers. This month at Direct & Beyond Inc., CEO Durk Jorritsma has implemented Cartrack’s state of the art tracking technology in all DBI trucks in order to enhance delivery and customer service. Not only can we locate our drivers 24 hours a day on any platform (computer, tablet or smartphone), we can also access fundamental data to efficiently manage our drivers instantly during shipments. With the new fleet management features, we can now ensure our drivers are carrying cargo safely by monitoring their speed, break intensity, and compliance with driving laws. In order to reduce fuel consumption, we are now able to provide quicker routes and prevent route inefficiencies for our drivers in real time. Having Cartrack closely aligned with our DBI trucks will ensure growth in our business and quality service for our customers. For more information on Cartrack visit their website at <https://www.cartrack.us>.
